

FOR IMMEDIATE RELEASE

Spectrum Quartz announces South Carolina quartz slab production facility

(Cranbury, NJ – May 24, 2019) Spectrum Quartz, a Hirsch Glass Corporation brand, has today announced plans to open a state-of-the-art quartz surface production facility in Dillon County, South Carolina. The 360,000 square foot site is expected to be operational by the end of 2019. Spectrum Quartz anticipates the new operation will better serve customers by providing a quicker delivery time as well as increased capacity to meet increased market demand.

A leading quartz manufacturer and distributor, Spectrum Quartz utilizes several patents to produce quartz surfaces with unique visual aesthetics. Spectrum Quartz features over 50 quartz surfacing designs, ranging from classical to contemporary in nature. Innovative new designs will be introduced and produced by the facility in late 2019.

The South Carolina facility has been in the planning stages since 2017. Spectrum Quartz currently owns one operational production facility in China and has been producing quartz surfaces since 2014.

More Information

Hirsch Glass Corporation is headquartered in Cranbury, NJ. Established in 2005, Hirsch Glass designs and manufactures glass tile and mosaics. In 2014, the Spectrum Quartz brand was established and has since become a leading quartz surface brand.

The new production facility will be located at 4461 US Hwy 301, Latta, SC. Hiring for the operation will begin in the third quarter of 2019.
